Education

- **BVRIT Hyderabad College of Engineering for Women**
Bachelor of Technology, Branch: Computer Science and Engineering 2023-2027
CGPA : 9.14
- **Narayana Junior College, Ramachandrapuram, Sangareddy**
Telangana State Board of Intermediate Education 2021-2023
Percentage : 98.2%
- **Vijetha High School, Narayankhed, Sangareddy**
SSC 2021
Percentage : 100%

Skills

- **Programming Languages:** Java, Python, C, SQL, JavaScript
- **Tools & Technologies:** Git, GitHub, Azure, SQLite, MySQL, Tableau, IntelliJ IDEA, Visual Studio Code, Eclipse, DEV C++
- **Web Technologies:** HTML, CSS, Node.js, React.js, Spring Boot

Projects

YogaAlign – AI-Powered Yoga Pose Detection & Feedback

- Engineered a real-time yoga pose recognition system that analyzed over 1,000 yoga sessions, providing corrective feedback that improved posture accuracy by up to 95%.
- Trained a Random Forest classifier achieving 99.9% accuracy across 6 yoga poses.
- Implemented support for both uploaded videos and live webcam feeds, processing at 50+ FPS with instant visual feedback.
- **Tech Stack:** Python, OpenCV, MediaPipe, scikit-learn, NumPy, Pandas, Matplotlib.

ProVisionAI – Image Annotation Platform

[GitHub Link](#)

- Designed a web app to auto-generate captions and extract text in 3 languages, increasing annotation efficiency by 60%.
- Integrated Google Gemini Vision Pro and Tesseract OCR, reducing annotation time by 70% for multilingual datasets.
- **Tech Stack:** Python (Flask), HTML, CSS, JavaScript, Bootstrap, Google Gemini API, Tesseract OCR.

Vi-Danta – Mobile App for Dental Clinics

- Engineered a mobile application for patient record management with login authentication, appointment scheduling, and secure record access, reducing administrative paperwork and saving 10 hours per week for clinic staff.
- Enhanced clinic operations with appointment tracking and digital record management, improving workflow efficiency by 50%.
- **Tech Stack:** Java, Kotlin, SQLite, Android Studio.

Bombsweeper Game

[GitHub Link](#)

- Created a two-player Python Tkinter game featuring a 15×15 grid, 20 randomized bombs, turn-based mechanics and real-time win/loss tracking.
- **Tech Stack:** Python, Tkinter.

Achievements

- **Top 50 Finalist – SIH Hackathon** (Top 10%, 50/250 teams) Sep 2024

Certifications

- **Microsoft Azure Fundamentals (AZ-900)** – Intellipaat Jul 2025
[Certificate Link](#)
- **AI & ML Workshop** – AIESEC, IIT Hyderabad Mar 2025
Hands-on exposure to advanced AI & ML concepts.
